@ Sheerena Thabasum

The entire experience at Shasha is overwhelming like from the treatment to the results made me blow my mind within 2 months of the treatment which I underwent for my skin lightening and brightness in the face and especially the consultation of the Cosmetologist (Shabeena ma'am) was significantly amazing and made me feel that the process will have a positive end result also the staffs were so much welcoming and the way they handle every patient is excellent and I am completely satisfied. :)
